The Most Successful Ovulation Inducing Agent

LETJOY[®]

Letrozole 2.5 mg **Tablets**

Superiority over Clomiphene Citrate (CC)

- Higher ovulation and pregnancy rate as compared to CC
- Superior to CC in ovulation induction for patients with PCOS
- Effective in CC resistant cases
- Lower risk of multiple pregnancy

Uncompromised fetal safety profile established in large scale clinical trials done world wide

- DCGI has approved Letrozole as on Ovulation Inducing Agent (Jan 2017)
- American Society of Reproductive Medicine(ASRM) has permitted use of Letrozole as First Line Ovulogen (June 2018)
- WHO has recommended Letrozole as first line OI in medicine in anovulatory patient (2016)

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

Designed especially for Gynecologist

In Preparation of Healthy Endometrium

NIDASURE®

Estradiol Valerate 2 mg **Tablets**

- **To prepare** Endometrium in Frozen Embryo Transfer Cycles
- **Priming** of Endometrium in Estrogen deficiency conditions
- **To Increase** thickness of Endometrium in Ovulation Induction Cycles
- **As Hormone Replacement Therapy**

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Supporting Pregnancy

OLIPREG[®]-SR $\frac{200}{300}$

Natural Micronised Progesterone 200 / 300 mg SR Tablets

- Micronized progesterone as the first choice for opposing estrogen therapy in non-hysterectomized postmenopausal women.
- Hormone (LH) which stimulates the corpus luteum (the remnant egg sac) in the ovary to produce progesterone.
- Offers stable serum progesterone concentration over 24 hours dosing interval.
- Allows for full development of the fetus through pregnancy.

Natural Progesterone

100% affinity to progesterone receptors. Endometrial morphology matches that of natural cycle.

Safe

No androgenic and teratogenic effects

In Luteal Phase Deficiency

Achieves luteal phase progesterone levels & improves fertility outcome

In Habitual & Threatened Abortion

Evidence suggests that Progesterone given in early pregnancy is highly useful in women with recurrent miscarriage.

Luteal phase Deficiency
Premenstrual Syndrome
Preterm Labour
Amenorrhoea

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Promoting Hormone Balance in PCOS

POLYCYSTOL™

Myo-Inositol 550 mg, D-Chiro-Inositol 13.8 mg,
Folic Acid 1.5 mg, Vitamin D3 200 IU **Capsules**

*Improves Ovulation &
Pregnancy Rate in Polycystic
Ovarian Disease*

Also Contains
Vit. D3
(200 IU)

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

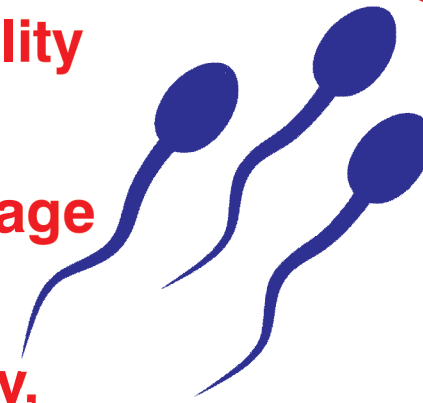

In Male Infertility & Low Sperm Count (Oligozoospermia)

SPERMSURE[®]

Levocarnitine 500 mg, Ubidecarenone (Co Enzyme Q 10)100 mg, Zinc Sulphate Monohydrate 12.5 mg, Lycopene Preparation (10%) 2.5 mg **Tablets**

- **Helpful for Sperm Function and Fertility**
- **Raises Sperm Counts and Motility**
- **Protects Sperm from Oxidative Damage**
- **Maintains Function of Epididymis**
- **Improves Sperm Formation, Quantity, Structure and Function**

Coenzyme Q10

- **Administration of CoQ10 increased the pregnancy rate by 36%.**
- **Sperm motility index improved in 54% Test Subjects and 38% showed improvement in sperm morphology.**

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Bacterial Vaginosis

FLURNEST™

Lactobacillus Acidophilus 1.0 Billion CFU, Rhamnosus 0.5 Billion CFU, Reuteri 0.5 Billion CFU **Capsules**

2 Billion Beneficial Bacteria per Capsule
with patented lactobacillus
strains : L. acidophilus,
L. rhamnosus and L. reuteri

- Clinically Tested Strains
- Balances Yeast & Bacteria
- Proprietary Probiotic Blend for Vaginal Health

PROBIOTIC OF CHOICE IN CHRONIC URINARY TRACT INFECTION AND VULVO VAGINITIS

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Cellular Metabolism

ENARGOL™

SACHETS

L-Arginine 3 gm, Folic Acid 2.5 mg, Zinc Sulphate Monohydrate 10 mg **Sachets**

- **Ensures** complete absorption
- **Assures** dosing convenience
- **Promises** effective outcome
- **Provides** economy on long term treatment
- **Reduces** Erectile Dysfunction In men

L-Arginine

The precursor of nitric oxide.

Zinc

Vital trace mineral for optimal foetal & tissue growth.

Folic Acid

Essential vitamin for cell division, Enhances maternal-placental - foetal blood circulation.

**More Powerful,
More Convenient**

In management of IUGR, Preeclampsia, Oligohydramnios

- Dietary arginine supplementation during early pregnancy enhances the embryonic survival in high risk cases.
- L-arginine and antioxidant vitamins prevent pre-eclampsia in high risk pregnancy.

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Folic Acid, Vitamin B6 & Vitamin B12 Deficiency

FOLICONIT™

Methylcobalamin 1.5 mg, L-Methylfolate Calcium 1 mg &
Pyridoxal-5-Phosphate 0.5 mg **Tablets**

- Methylcobalamin equivalent to vitamin B₁₂ is used to prevent anemia in pregnancy
- L-methylfolate, an active form of folic acid is used as supplement for various low folate level conditions like poor diet, pregnancy, liver diseases, alcoholism etc.
- Pyridoxine-5-Phosphate is responsible for synthesis of hormones, RBCs, neurotransmitters and enzymes

INDICATIONS

- Hyperhomocysteinemia
- High risk recurrent pregnancy loss
- Risk of anemia due to impaired folic acid absorption
- Impaired metabolism due to 677c-t mutations
- L-methylenetetrahydrofolate reductase gene
- Supplement for women of child-bearing potential

FOLICONIT™ Refresh your Energy

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In 2nd & 3rd Trimester of Pregnancy

FOLICONIT-DHA™

Completes your requirement for healthy outcome

DHA 10% 200 mg, L-Methyl Folate Calcium 1 mg,
Pyridoxal-5-Phosphate 0.5 mg, Methyl Cobalamin 1.5 mg, Vitamin D3 1000 IU **Soft Gel Capsules**

DHA 10% 200 mg, Vitamin D3 1000 IU

DHA

Growth & Function Development
of Brain in Infants

Normal Brain Function in Adults

FOLIC ACID

Essential Role in Cellular
Division and DNA Synthesis

Red Blood Cell Production

Neural Tube Protections

IUGR

Reduces the risk of Prematurity

Prenatal Brain & visual function

IQ level

Prevents Miscarriage

Satisfies Every Demand....

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Iron Deficiency Anemia

FEMORISE™-XT

Ferrous Ascorbate 100 mg, Folic Acid 1.5 mg,
Zinc Sulphate Monohydrate 61.8 mg Eq. to Elemental Zinc 22.5 mg **Tablets**

Ferrous Ascorbate

Iron is absorbed excellently in bonded form

Folic Acid

Takes part in the formation and maturation of RBC

Zinc

Zinc prevents IUGR (Intra Uterine Growth Retardation)
Helps development & growth of foetus

Prescribed in :

- Pregnancy & Lactation
- General debility
- Convalescence
- Anemia
- Haemoglobin build-up
- Hookworm Infestation

**Most advanced
Supportive Iron
Therapy**

Speedy & effective way to increase hemoglobin

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Calcium Deficiency, Increased Bone Loss & Osteomalacia

FEMMECAL™-D3

Calcium Citrate 1000 mg, Magnesium Hydroxide 100 mg,
Vitamin D3 200 IU, Zinc Sulphate Monohydrate 4 mg **Tablets**

- Essential for Growth & Maintenance of Bones & Teeth
- Keeps Blood Pressure Normal During Pregnancy
- Reduces the Risk of Heart Diseases & Colorectal Cancer
- Prevents Rickets in Children & Osteoporosis in Adults

Prescribed in :

- Pregnancy & Lactation
- Rickets in children
- Osteoporosis in adults
- High risk of cancer & heart disease

Drives more Calcium
Builds Bone Mass

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Gastric Acidity & Nausea-Vomiting

PANILIUM™-DSR

Pantoprazole 40 mg + Domperidone 30 mg **Capsules**

Pantoprazole

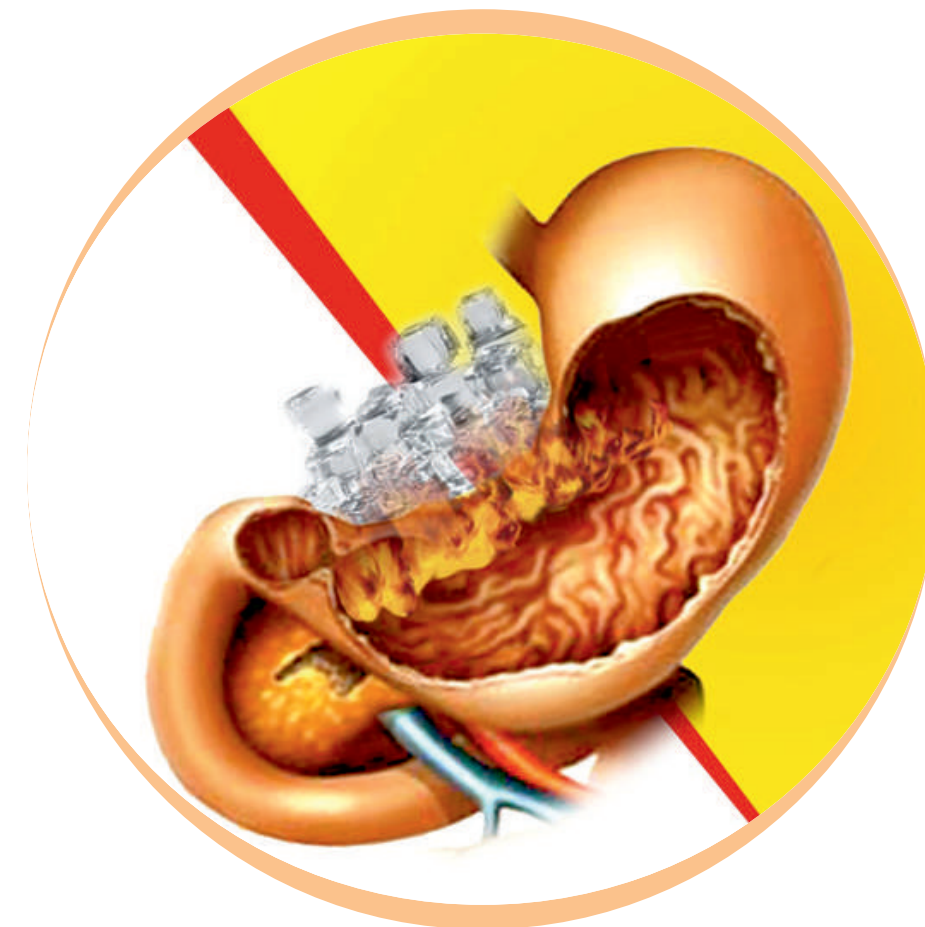

- Potent inhibitor for gastric acid secretion.
- Promotes fast healing of gastric / duodenal ulcers.
- Superior to omeprazole in healing gastric ulcers.
- Possesses favourable safety profile compared to other PPI's.

Domperidone

- Enteric coated pellets for a consistence & prolonged action.
- Possesses prokinetic action for the symptomatic treatment of dyspepsia.
- Eliminates nausea & vomiting associated with GERD.
- Increases lower esophageal tone & esophageal clearance.

Indications :

- ★ G. E. R. D.
- ★ Peptic Ulcer Disease
- ★ Oesophageal Reflux
- ★ Zollinger Ellisons Syndrome(ZES)
- ★ Drug Induced Gastritis
- ★ Dyspepsia

Works Round the Clock

FOR USE BY REGISTERED MEDICAL PRACTITIONER ONLY.

In Topical Solution For Fungal Infections

SERTAPAM[®]

Sertaconazole Nitrate 2% **15 gm cream**

- An antifungal medication. Kills and stops the growth of fungus.
- Sertapam cream 2% is an effective option for the treatment of Tinea pedis.
- Sertapam has shown an anti-inflammatory effect that is very useful for the relief of unpleasant symptoms in treatment of superficial candidiasis.

Most Potent against
